

C13 EcoDetergent for dishwashers

Professional detergent for dishwashers

Ideal for all types of crockery: ceramic, porcelain, glass, crystal and metal (aluminum and light metal alloys excluded).
Specific formula for soft waters.

Area of application

Professional kitchens, cafeterias, bars, restaurants, canteens, commercial catering kitchens

Suitable for: hood type dishwashers, undercounter, glasswashers, pot and pan washers

Description

C13 EcoDetergent for dishwashers is a controlled-foam alkaline liquid detergent with high degreasing properties, which guarantees the complete washing of dishes, cutlery, pans, pots and glasses.

It easily eliminates dried food residues and all types of dirt, leaving the crockery perfectly clean.

The special "eco-formula", without polyphosphates, EDTA and NTA guarantees a reduced environmental impact.

This product is the result of thorough testing in the Electrolux Professional laboratories. C13 EcoDetergent for dishwashers is the best solution for sparkling clean crockery, and for maintaining high performance levels of the dishwasher.
